

Consumables for Day 5 Biopsy

Consumables for Day 5 Biopsy

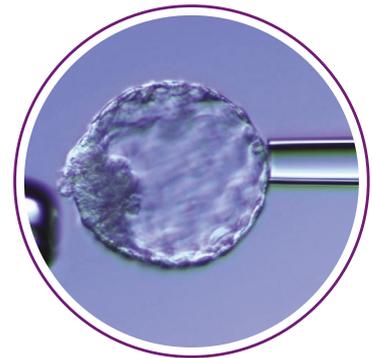

Choose from a range of high-quality media to support and protect the embryo during biopsy, and our biopsy and holding micropipettes to help facilitate easier procedures. We provide handling tips for embryos and biopsied cells and offer hands-on training courses for improving biopsy techniques and use of laser for assisted hatching.

Product	Recommended Products	Order Code
Holding Media	Quinn's Advantage™ Medium with HEPES	ART-1023
